Corner Whirlpool or Bath

PRO-FIT®

Upgrades

Factory Installed Nailing Flange

- Code approved, nailing flange option makes watertight installation easy and secure.

Factory Installed In-line Heater

- A reliable, heating control upgrade maintains water temperature at desired level and operates when flow of water is detected in the system. Features a standard plug for easy electrical connection (GFCI: 120V, 20 amp dedicated circuit required to power this heater).

Nailing Flange Kit

- Code approved kit featuring flange material, sticky tape and instructions.
- Makes watertight installation easy and secure.

Lift & Turn Drain Kit

Chrome, Everbrass (PVD), Brushed Nickel and Oil Rubbed Bronze

- The lift and turn drain kit provides simple and easy draining of the bathtub.

Trim Upgrade

- This option allows an upgrade to Chrome, Everbrass (PVD), Brushed Nickel and Oil Rubbed Bronze trim including jets, intake, control and air controls.

Technical Information

No apron available on this model

Pump locations are shown for clarity. STD-standard pump location. ALT1-alternate pump location.

Note: If a factory installed nailing flange is added to a unit, add 1/8" to each side flanged.

Installer Note: Due to the freeform shape of the tub shell, it is recommended that the tub be on the jobsite before making the final cut-out for drop-in installation.

Note: Measurements may vary 1/4" (+/-)

NOTE: Install this product according to the installation guide.
